## Work Experience

06/2023 – Present **Lecturer in Software Engineering and Researcher**, *Institute for Software at Eastern Switzerland University of Applied Sciences (OST)*, Rapperswil SG

- Lecturing modules Object-Oriented Programming, Application Architecture, Software Engineering Practices, Cloud Solutions.
- Advising students in software engineering projects.
- Supervision of study projects, bachelor theses as well as master theses.
- Research projects in the area of Software Engineering, Domain-Driven Design, API Refactorings, Ethical and Value-Based Software Engineering.
- Consulting, coaching and trainings in the following topics: Software Architecture, Domain-Driven Design (DDD) and/or Context Mapper, Cloud-Native Applications.
- Creating and applying new teaching material and approaches in the area of Collaborative Modelling (EventStorming, Domain Storytelling, etc.).

01/2021 – 05/2023 **Software Architect**, *mimacom ag*, Zurich

Architect and tech-lead in software engineering projects, DDD expert, leader of a team of six software engineers.

- Software Architect role in several in-house projects and in consulting assignments at customer site.
- Planning, design and implementation of software components and integration solutions.
- Leading project teams regarding technology, architecture and design (professional & technical coaching).
- Domain-Driven Design (DDD) consulting (in-house and in customer projects)
- Active participation in the architecture guild, DDD guild and requirements engineering guild (contribution of know-how in relation to DDD).
- Technologies and methods:
  - Onion architecture and Domain-Driven Design (DDD)
  - Microservice architectures
  - RESTful HTTP, Open API specifications (Swagger), messaging with RabbitMQ
  - Arc42 software documentation, Context Mapper, PlantUML
  - Spring Framework
  - Java 8-17, Kotlin

- Technologies and methods: (continued)
  - Angular, Typescript
  - Docker, Kubernetes, OpenShift
  - GIT, Maven, Gradle, GitLab
  - JPA, Hibernate, Flyway
  - PostgreSQL, Oracle DB
  - JUnit, TDD, ArchUnit

02/2020 – 12/2020 **Software Engineer and Project Lead**, *Institute for Software (IFS) at University of Applied Sciences of Eastern Switzerland (OST / HSR), Rapperswil SG*

Leading development and research around the Context Mapper project. Supporting other research projects and teaching on software architecture, (micro-)service-oriented architectures, and Domain-driven Design (DDD).

Involved projects and activities:

- Context Mapper ([contextmapper.org](http://contextmapper.org)) open source project, "A Modeling Framework for Strategic Domain-driven Design"
- Microservice DSL (MDSL) project ([microservice-api-patterns.github.io/MDSL-Specification](https://microservice-api-patterns.github.io/MDSL-Specification))
- Teaching support in application architecture on B.Sc. level

05/2018 – 09/2018 **Software Engineering (Intern)**, *Ergon Informatik AG, Zurich*

- Implementation of business web application in the real estate industry
  - Implementation and maintenance of build and testing platforms
  - Conducting customer trainings and a requirements engineering workshop
- Used technologies and frameworks: HTML, CSS, JS, Freemarker, Java, Magnolia CMS, Gradle, Maven, Ansible

01/2014 – 08/2017 **Software Engineer Professional**, *Adcubum AG, St. Gallen*

- (part-time: 60%)
- Design and implementation of tools to support developers (Eclipse plugins, command line tools, etc.)
  - Development and realization of concepts concerning CI/CD
  - Development, operation, and maintenance of 'adcubum SYRIUS' build and its continuous integration environment with Gradle and Jenkins
  - Development, integration, and operation of software documentation tools;
  - Classic software engineering tasks with Java and J2EE

01/2014 – 08/2017 **Software Engineer Professional**, *Adcubum AG (continued)*

- (part-time: 60%)
- Documentation of architecture and design
  - Supporting the migration from SVN to GIT
  - Supporting developers regarding IDE (Eclipse), Build (Gradle), SCM (Git), Continuous Integration, etc.

10/2012 – 12/2013 **Software Engineer**, *Adcubum AG, St. Gallen*

Product development (adcubum SYRIUS):

- Development of new features and enhancements in the module "Bestandes-/Vertragsverwaltung"
- Creation of SQL scripts for database migration (Oracle DB)
- Architecture optimization for business processes within the module
- Supporting software quality assurance processes

Used systems and technologies: Java, JEE, Eclipse, SVN, Oracle SQL, XML, Linux

- 05/2011 – 09/2012 **Software Developer Java**, *swoffice AG*, Teufen
- Product development (CRM solution)
  - Testing and operating solution (cloud-based solution)
  - Collaboration with customers in multiple projects
- Used technologies: Java, JavaFX, Spring Framework, Apache Lucene, PostgreSQL
- 09/2008 – 04/2011 **Software Developer**, *clavis IT ag*, Herisau
- Development of solution concepts
  - Specification and design of solutions in direct collaboration with customers
  - Implementation of solutions based on the following technologies, frameworks, and products: IBM Lotus Notes/Domino, Liferay Portal, Java/JEE (Tomcat and WebSphere Express), Web technologies (CSS, JS, HTML, XML), Webservices
  - Testing and documentation
  - Supporting customers with operating implemented solutions
- 08/2004 – 08/2008 **Apprenticeship in informatics (application development)**, *clavis IT ag*, Herisau
- Software development (IBM Lotus Notes, Java, web technologies)

## Education

- 09/2018 – 01/2020 **M.Sc. in Engineering - Focusing on Information and Communication Technologies in the Software and Systems Master Research Unit**, *University of Applied Sciences of Eastern Switzerland (HSR FHO)*, Rapperswil
- Conducted several research projects on service decomposition, (micro-)service-oriented architectures, and Domain-driven Design (DDD) aiming to strengthen personal knowledge in software architecture. The open source tool Context Mapper is a result of these projects.
- 09/2017 – 04/2018 **Completed 21 credits towards M.Sc. in Computer Science**, *ETH Zurich*, Zurich
- Completed the following courses: Algorithms and Data Structures, Theoretical Computer Science, Linear Algebra
- 09/2013 – 08/2017 (part-time) **B.Sc. in Computer Science**, *University of Applied Sciences of Eastern Switzerland (HSR FHO)*, Rapperswil
- Thesis:* Developed a concept and prototypic implementation for an architectural refactoring of the data access security based on attribute-based access control (ABAC) in a standard software for the insurance sector.
- 10/2009 – 10/2012 **Advanced Federal Diploma of Higher Education (HF) in Computer Science**, *Zentrum für berufliche Weiterbildung (ZbW)*, St. Gallen
- Thesis:* Concept for a “State of the art Java development environment with Continuous Integration (CI)” and implementation in a case study project.
- 08/2004 – 08/2008 **Apprenticeship in informatics (application development)**, *clavis IT ag*, Herisau
- Federal Diploma of Vocational Education and Training (EFZ)

---

## Theses, papers, and publications

- 2025 **API Refactoring and Reengineering: Distribution Patterns and Evolution Strategies**, *Olaf Zimmermann, Stefan Kapferer, Clemens Meier, Mirko Stocker*, Proceedings of the 30th European Conference on Pattern Languages of Programs, People, and Practices (EuroPLoP '25), Springer  
*to be published soon*
- 2025 **Refactoring API Endpoints, Operations and Messages**, *Mirko Stocker, Stefan Kapferer, Olaf Zimmermann*, Proceedings of the 30th European Conference on Pattern Languages of Programs, People, and Practices (EuroPLoP '25), Springer  
*to be published soon*
- 2025 **Domain-Driven Design Representation of Monolith Candidate Decompositions**, *Miguel Levezinho, Stefan Kapferer, Olaf Zimmermann, Antonio Rito Silva*, Enterprise Design, Operations, and Computing (EDOC) 2025, Springer Nature Switzerland  
[https://link.springer.com/chapter/10.1007/978-3-031-78338-8\\_10](https://link.springer.com/chapter/10.1007/978-3-031-78338-8_10)
- 2024 **Towards responsible software engineering: combining value-based processes, agile practices, and green metering**, *Stefan Kapferer, Mirko Stocker, Olaf Zimmermann*, 2024 IEEE International Symposium on Technology and Society (ISTAS), Puebla, Mexico, 2024, pp. 1-4, IEEE  
<https://ieeexplore.ieee.org/abstract/document/10732097>
- 2024 **Value-Driven Analysis and Design: Applying Domain-Driven Practices in Ethical Software Engineering**, *Stefan Kapferer, Olaf Zimmermann, Mirko Stocker*, Proceedings of the 29th European Conference on Pattern Languages of Programs, People, and Practices (EuroPLoP '24), Association for Computing Machinery (ACM)  
<https://dl.acm.org/doi/pdf/10.1145/3698322.3698332>
- 2024 **Pattern-oriented API Refactoring: Addressing Design Smells and Stakeholder Concerns**, *Mirko Stocker, Olaf Zimmermann, Stefan Kapferer*, Proceedings of the 29th European Conference on Pattern Languages of Programs, People, and Practices (EuroPLoP '24), Association for Computing Machinery (ACM)  
<https://dl.acm.org/doi/pdf/10.1145/3698322.3698334>
- 2024 **Bringing Ethical Values into Agile Software Engineering**, *Olaf Zimmermann, Mirko Stocker, Stefan Kapferer*, The Leading Role of Smart Ethics in the Digital World, Universidad de La Rioja  
<https://dialnet.unirioja.es/descarga/articulo/9537231.pdf>
- 2024 **Continuous Integration and Delivery in Open Source Development and Pattern Publishing: Lessons Learned With Tool Setup and Pipeline Evolution**, *Olaf Zimmermann, Cesare Pautasso, Stefan Kapferer, Mirko Stocker*, IEEE Software, IEEE, volume 41, issue 1  
<https://doi.org/10.1109/MS.2023.3322312>

- 2022 **“Domain-Driven Design (DDD) in Practice – Experience with Context Mapper”**, *Stefan Kapferer*, Blogpost  
[blog.mimacom.com/ddd-and-context-mapper-experience](http://blog.mimacom.com/ddd-and-context-mapper-experience)
- 2021 **“Domain-Driven Design in der Praxis - Erfahrungen mit dem Open-Source-Tool Context Mapper” (GERMAN)**, *Stefan Kapferer, Olaf Zimmermann*, JavaSPEKTRUM, 6/2021, pages 20-23  
<https://contextmapper.org/background-and-publications/>
- 2021 **Domain-driven Architecture Modeling and Rapid Prototyping with Context Mapper (Revised and Extended Selected Papers)**, *Stefan Kapferer, Olaf Zimmermann*, 8th International Conference on Model-Driven Engineering and Software Development - MODELSWARD, Springer CCIS, volume 1361  
[https://doi.org/10.1007/978-3-030-67445-8\\_11](https://doi.org/10.1007/978-3-030-67445-8_11)
- 2020 **Domain-driven Service Design - Context Modeling, Model Refactoring and Contract Generation**, *Stefan Kapferer, Olaf Zimmermann*, Papers From the 14th Advanced Summer School on Service-Oriented Computing (SummerSOC’20)  
[https://doi.org/10.1007/978-3-030-64846-6\\_11](https://doi.org/10.1007/978-3-030-64846-6_11)
- 2020 **Domain-specific Language and Tools for Strategic Domain-driven Design, Context Mapping and Bounded Context Modeling**, *Stefan Kapferer, Olaf Zimmermann*, Proceedings of the 8th International Conference on Model-Driven Engineering and Software Development - MODELSWARD, pages 299-306, INSTICC, SciTePress  
<https://doi.org/10.5220/0008910502990306>
- 2020 **A Modeling Framework for Strategic Domain-driven Design and Service Decomposition**, *Stefan Kapferer*, Master thesis, University of Applied Sciences of Eastern Switzerland (HSR FHO)  
Proposing a modular architecture for a Strategic Domain-driven Design (DDD) modeling framework including a DSL, a reverse engineering framework, Architectural Re-factorings (ARs), service decomposition analysis on the basis of coupling criteria, and multiple graphical generators. More information can be found in the open source project [contextmapper.org](https://contextmapper.org) for more information. <https://eprints.ost.ch/821/>
- 2019 **Service Decomposition as a Series of Architectural Refactorings**, *Stefan Kapferer*, Term project, University of Applied Sciences of Eastern Switzerland (HSR FHO)  
<https://eprints.ost.ch/784/>
- 2019 **Empirical Research in Software Engineering**, *Stefan Kapferer*, Seminar paper, University of Applied Sciences of Eastern Switzerland (HSR FHO)  
Scientific research strategies applied to software engineering.  
<https://eprints.ost.ch/820/>
- 2018 **A Domain-specific Language for Service Decomposition**, *Stefan Kapferer*, Term project, University of Applied Sciences of Eastern Switzerland (HSR FHO)  
A formal approach to strategic Domain-driven Design (DDD) and service decomposition implemented in the Context Mapper open source tool.  
<https://eprints.ost.ch/722/>

- 2018 **Model Transformations for DSL Processing**, *Stefan Kapferer*, Seminar paper, University of Applied Sciences of Eastern Switzerland (HSR FHO)  
Proof of concept for the implementation of refactorings for Domain-specific Languages (DSLs) on the basis of the Henshin tool and algebraic graph transformations.  
<https://eprints.ost.ch/819/>
- 2017 **“Attributbasierte Autorisierung in einer Branchenlösung für das Versicherungswesen”**, *Stefan Kapferer, Samuel Jost*, Bachelor thesis, University of Applied Sciences of Eastern Switzerland (HSR FHO)  
Concept and prototypic implementation for attribute-based access control (ABAC) in a (micro-)service-oriented architecture. <https://eprints.ost.ch/602/>
- 2016 **“Architectural Refactoring der Data Access Security”**, *Stefan Kapferer*, Semester thesis, University of Applied Sciences of Eastern Switzerland (HSR FHO)  
Extracting the data access security of a monolithic application into a separate Bounded Context (DDD) or microservice. <https://eprints.ost.ch/564/>

---

## Certificates, Further Education, and Awards

- 2025 **iSAQB Advanced Module: AGILA - "Agile Softwarearchitektur"**
- 2025 **"CAS in Hochschuldidaktik" (10 ECTS) at Eastern Switzerland University of Applied Sciences (OST)**
- 2024 **iSAQB Advanced Module: DDD - "Domain-Driven Design"**
- 2023 **"Starter Kit in Hochschuldidaktik" at Eastern Switzerland University of Applied Sciences (OST)**
- 2022 **iSAQB Advanced Module: IMPROVE - "Evolution und Verbesserung von Softwarearchitekturen"**
- 2021 **iSAQB Certified Professional for Software Architecture - Foundation Level**
- 2020 **SummerSoC Young Researcher Award 2020**,  
*For the paper: "Domain-driven Service Design - Context Modeling, Model Refactoring and Contract Generation",*  
Symposium and Summer School on Service-oriented Computing  
Sponsored by ServTech (Scientific Academy for Service Technology)

---

## Open Source Projects

Open source projects I contribute(d) to:

**Context Mapper:**

**A Modeling Framework for Strategic Domain-driven Design**

[github.com/ContextMapper](https://github.com/ContextMapper)

**Value-Driven Analysis and Design (VDAD)**, *Technology should support humanity and avoid harming people and their values; we want to help engineers and technology creators create solutions that promote positive values and aim to reduce harm to our society and people.*

[ethical-se.github.io/value-driven-analysis-and-design](https://ethical-se.github.io/value-driven-analysis-and-design)

**Ethical Software Engineering (ESE)**, *Ethical values and IEEE 7000 meet agile practices (for mutual benefit)*  
[github.com/ethical-se/ese-practices](https://github.com/ethical-se/ese-practices)

**Cloud Application Lab (OST)**, *Sample apps for the cloud; focus on Serverless and AWS.*  
[github.com/OST-Cloud-Application-Lab](https://github.com/OST-Cloud-Application-Lab)

**Interface Refactoring Catalog (IRC)**, *A collection of API refactorings and related architectural refactorings.*  
[interface-refactoring.github.io](https://interface-refactoring.github.io)

**Microservice Domain-Specific Language (MDSL)**  
[github.com/Microservice-API-Patterns/MDSL-Specification](https://github.com/Microservice-API-Patterns/MDSL-Specification)

**Lakeside Mutual**, *a fictitious insurance company which serves as a sample application to demonstrate microservices and domain-driven design (DDD)*  
[github.com/Microservice-API-Patterns/LakesideMutual](https://github.com/Microservice-API-Patterns/LakesideMutual)

**Software / Service / API Design Practice Repository (DPR)**  
[github.com/socadk/design-practice-repository](https://github.com/socadk/design-practice-repository)

**protobufgen: A Java Library to Serialize Protocol Buffer Files**  
[github.com/Microservice-API-Patterns/protobufgen](https://github.com/Microservice-API-Patterns/protobufgen)
